

## We are very proud of Clover

At Clover, we don't think our people are the best, we know it. Because we care so much about you, we have designed a brand new range of clothing that you can wear to work or when you are at home.

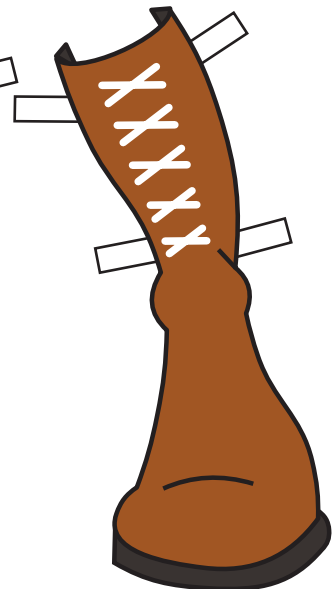

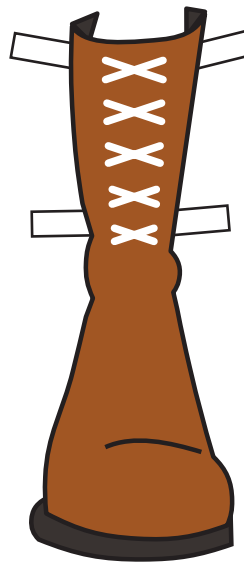

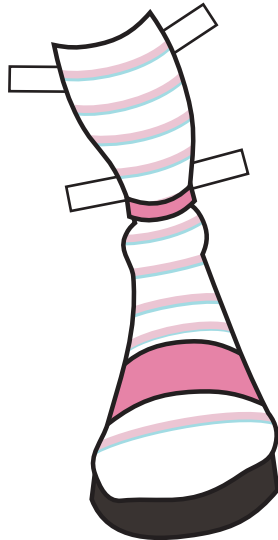

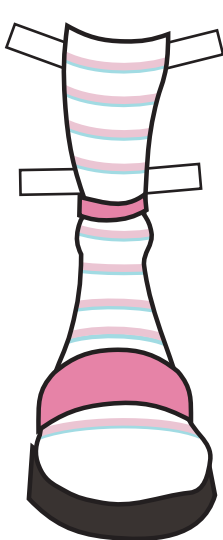

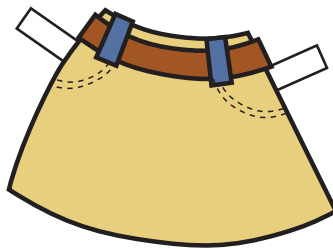

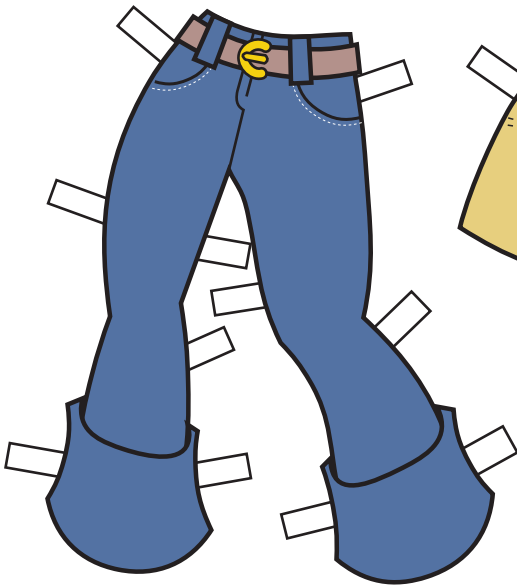

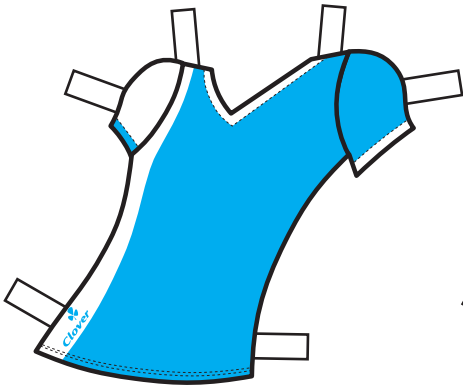

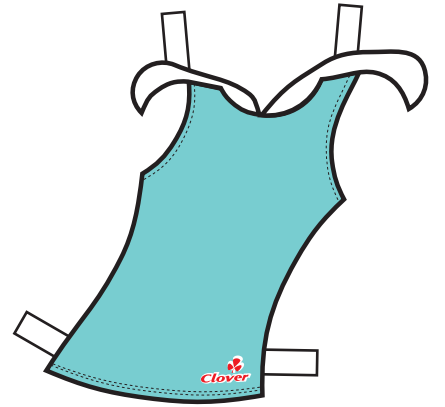

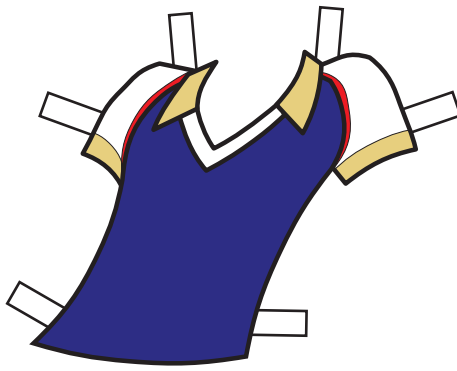

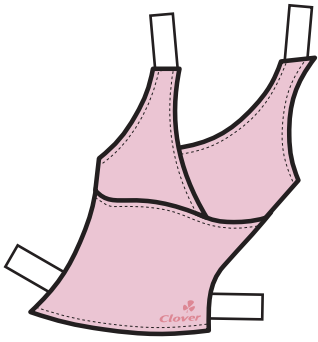

We also know that your families come first, that's why we have created these paper dolls, so that you can spend quality time with your children at home. Why don't you help your children to cut out **Naomi** and **Leonardo**, stick them on hardboard and let them model our new range?

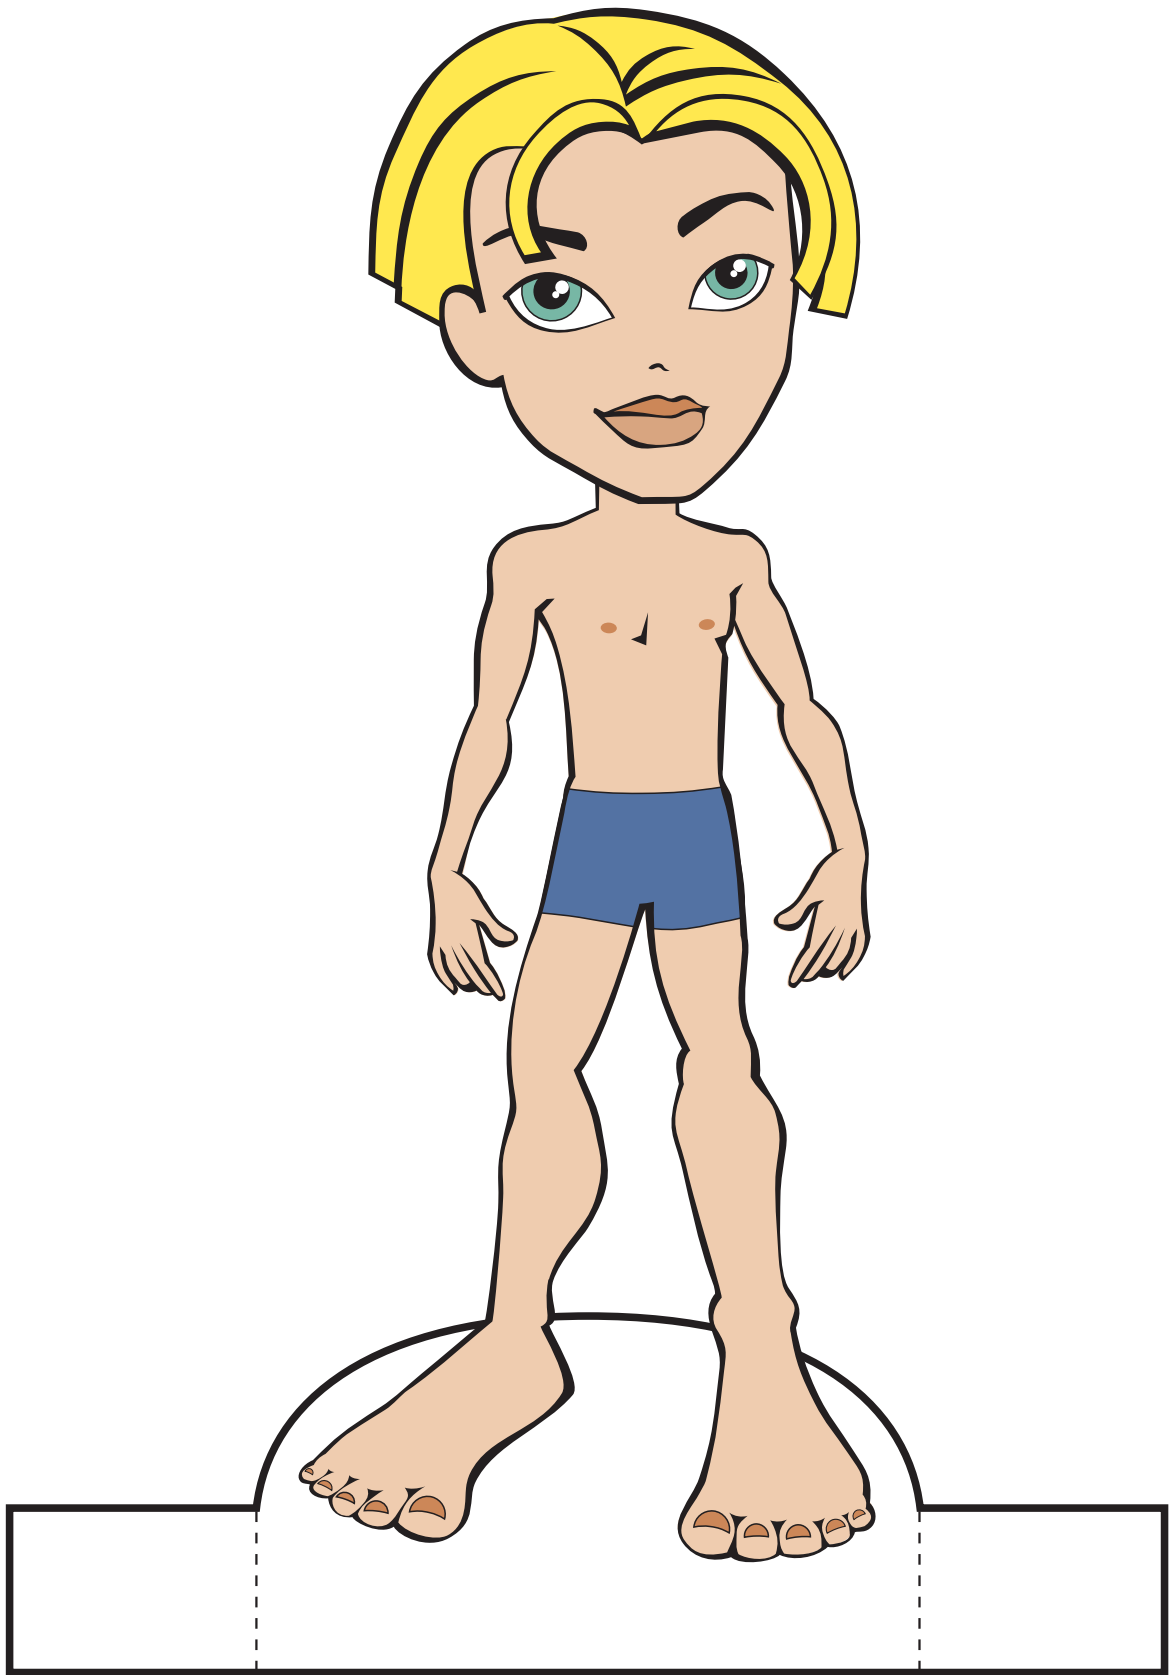

You can place your orders for our new range at the Clover Boutique. Sorry, the jeans, miniskirt and shoes aren't for sale though.
